

OPTIMIZING THE PATIENT JOURNEY IN VON WILLEBRAND DISEASE: EXPERIENCES AND LEARNINGS AS THE NAVIGATOR

Join our faculty of experts, Nicola Curry (hematologist, UK), Heleen Eising (gynecologist, The Netherlands), Julia Rauscher (patient advocate, Austria), and Sunny Maini (patient advocate, UK), as they discuss the real-life experiences of stakeholders navigating the von Willebrand disease (VWD) diagnosis and care pathways. The session will aim to be inspirational for the audience, to shorten the route to diagnosis of and optimize the care for patients with VWD.

The patient journey in von Willebrand Disease

Nicola Curry and Heleen Eising

Navigating the route to diagnosis: When to indicate and where to turn

Heleen Eising and Julia Rauscher

Mapping the maze of treatment pathways

Nicola Curry and Sunny Maini

The road ahead: Options to optimize the patient journey in von Willebrand Disease
